Note:

The altered format compensates for changes in questions asked on the January 1, 1980 questionnaire.

There is no direct comparable data for cows separate from heifers for 1979 because of the definition change.

Presently the questions read:

1. Cows (all females which have calved)
  - a) raised mainly for beef purposes
  - b) raised mainly for milk purposes
2. Heifers, 1 year and older (which have never calved)
  - a) raised for dairy herd replacement
  - b) raised for beef herd replacement
  - c) raised for slaughter

Previously the questions read:

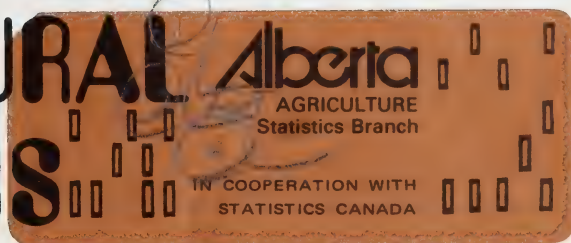

1. Cows and Heifers 2 years and over:
  - a) mainly for milk purposes
  - b) mainly for beef purposes
2. Heifers 1 year old and under 2 years:
  - a) raised for dairy herd replacement
  - b) raised for beef herd replacement
  - c) raised for slaughter
